

Block Kids Program NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION #302

Note to Participants:

ABOUT

The Construction Industry faces a workforce shortage that poses a serious problem for our national economy. To meet the demand for construction, the industry needs to attract, educate and train about 240,000 newcomers annually.

The Block Kids Program introduces children to the construction industry to create an awareness of and to promote an interest in future careers in one of the many facets of the industry. The Block Kids Building Program is a national building competition which is sponsored by NAWIC Chapters and other organizations that wish to promote children in grades K-12 about construction careers. The program is non-discriminatory and as such is open to all elementary school children in grades Kindergarten (K) through sixth (6).

This year's competition will be held at **Climax-Scotts Elementary School on January 31st from 9 am to noon**. The competition is free to participants, and we have room for up to seventy-five participants. Therefore, the **first seventy-five sign-up** forms submitted will be accepted. There is **no snow back up date** the event will be held on the 31st with as many participants that can safely make it.

Participants will have one hour to build an object that can be used theoretically by their community. No people or animals are allowed. They will receive one hundred Lego blocks and 3 other materials provided by us. Parents or siblings cannot assist them. Two judges will judge each participant. Awards (gift cards and hard hats) will be provided to each grade winner and to the overall event winner.
